Training Announcement

DataMaster DMT Training

The purpose of this two-hour training is to train law enforcement personnel in the proper use of the DataMaster Transportable (DMT) breath alcohol testing instrument. Upon completion of this training, a certified operator will be able to administer a breath alcohol test on a suspected intoxicated subject in the state of Michigan using a DMT. The operator will be familiar with the operating principle of the DMT, know the exterior components of the instrument, and know the pretest, subject, and accuracy check procedures and sequences.

Officers must bring their five-digit MCOLES number with them to the training for the training to be reported to MCOLES.
